

Name _____

Written Assessment 6

Date Nov. 7, 2011

Math 3 (for use with Lesson 35, Part 2)

- Duane had 6 dimes and 4 nickels. He gave 2 nickels to Martin. Draw a picture to show the coins Duane has now.

How much money does Duane have now? 70¢

- Al's mother bought a half-dozen blueberry muffins and a half-dozen corn muffins. Draw a picture and write a number sentence to show how many muffins she bought.

Number sentence Corn + blue = 12 muffins

How many muffins did Al's mother buy? 12 muffins

- Write a fact family using the numbers 2, 7, and 9.

2 + 7 = 9 7 + 2 = 9 9 - 7 = 2 9 - 2 = 7

- Use fractions to label each piece of the squares.

100% / 4

- Write each money amount in two ways.

thirty cents
\$0.30 30¢

five cents
\$0.05 5¢
